2008 HRVH Digitization Grants
Preliminary Application
(Deadline: May 16, 2008)

The Southeastern NY Library Resources Council is introducing a grant program to organizations in the region. The purpose of this grant program is to facilitate the conversion of unique and significant non-digital materials to digital format thereby enhancing the quality of the resources available in the Hudson River Valley Heritage (www.hrvh.org). Special consideration will be given to applications that propose the digitization of materials related to the colonial era, industrialization, and the 1909 Hudson-Fulton Celebration. If you have such a collection, we encourage you to complete this preliminary application.

- Grants will likely range from \$300 to \$5,000 and are intended primarily to partially offset the technical and personnel costs associated with a digitization project.
- The timeframe for projects funded by this grant is July 1, 2008 – July 31, 2009.
- Current HRVH contributors are encouraged to apply as well as new contributors who are willing to attend training on digitization.
- Digitized materials must be made available in HRVH.
- The initial year of an Affiliate Membership in SENYLRC, as well as extensive training and assistance, is included with the award of these grants.
- On a separate page, provide a brief statement that describes the collection you would like to digitize. Please make sure your description includes the types of materials (text, photographs, two and three dimensional objects, audio, video, etc.) in the collection, the size of the collection, and how it will contribute to the uniqueness of Hudson River Valley history and creativity.
- Please return this form and your brief statement to the attention of Tessa Killian, at the address above, or by email (killian@senylrc.org), by May 16, 2008.
- After the preliminary applications have been reviewed, we will contact applicants whose proposed projects result in the most unique and significant additions to HRVH. At that time we will discuss the project details with applicants, including the budget details.
